

## Mosaic Mat

### **You will need:**

Wooden plaque, Mosaic tiles, Grout, Acrylic paint, Mirror mosaic tiles  
Rubber spatula and sponge, Tile cutters, Silicone sealant (You can get all of these in kit form from Hobby Craft, although the big tubs of tiles and sealant last for a long time.

Cut mosaic tiles to your required size using tile cutters.

Plan out your design / house number with a pencil onto the wooden plaque.

Glue the cut mosaic pieces using silicone sealant on to the drawn out design.

When completed, mix up the powdered grout, adding acrylic paint to colour if you wish.

Spread the grout over the tiles ensuring all cracks are filled. Smooth out air bubbles and wipe off excess with the rubber spatula.

Allow to dry for 20 minutes then clean down using a sponge with a household cleaning cream.
