

crafts for summer

Summer residentials are the time to use craft ideas that would take too long for a company night.... And are consequently more sticky / messy.

'Talk 2 God' T-Shirts

You will need

Old plain T Shirt, permanent marker pens

Ask each girls to bring an old plain T-Shirt to your Summer Residential Event.

Using permanent marker pens, ask the girls to list their prayer requests on the shirt, adding what they would like God to do in response.

You could wear the shirt for the weekend, as a reminder to pray as often as possible.

Don't make too big a deal of it, it can be worn under other clothes – And add prayers on as you think of them..

Willow Sculptures

You will need

Willow branches, masking tape, pva glue, extra thick tracing paper / parchment paper, coloured tissue paper, glitter and sequin shapes, bowl of water to wash hands & towel to dry.

Create a shape out of willow, using the masking tape to hold in shape, a fish is a good starter.

Put the pva glue into a bowl, add water, to the consistency of double cream

Tear tracing paper into strips, immerse it in the glue, and take off the excess with your fingers.

Wrap the tracing paper around the willow shape, until it is fully covered.

Decorate with the tissue paper.

When dry decorate further with glitter and sequins (or anything from the craft box)
